

NRA PERSONAL PROTECTION OUTSIDE THE HOME

July 18-19, 2009

The NRA Basic Personal Protection Outside the Home Class is an intermediate level-shooting course on how to use a firearm for self-defense and requires students to have already mastered safe gun handling and basic marksmanship skills prior to attending the course. The course introduces the students to the knowledge, skills and attitude involved in safely, responsibly and effectively employing a concealed handgun for self-defense. It also covers the legal ramifications of concealed carry, including who can carry a handgun, when concealed carry is and is not permitted, legal and ethical ramifications when responding to a life threatening encounter using a concealed handgun and the legal, moral, emotional, and social aftermath of the use of deadly force outside the home. In order to take this class the student must have taken the NRA Personal Protection in the Home class or be able to pass a pre-course evaluation which includes a written test and a demonstration of safe gun handling skills and good marksmanship. In order to receive a certificate from the class you must attend both sessions.
